Full Synthetic Multi-Vehicle ATF #10000

No supplements or additives required when using ONE FORMULA Multi-Vehicle ATF #TR200.

* Some performance levels may be limited by specific viscosity requirements. For specific fluid type designations by application, consult the vehicle's owners manual.

VS7 Full Synthetic Multi-Vehicle ATF (#TR200) is NOT intended or recommended for use in Allison TES, Ford Type F, Continuously Variable Transmissions (CVT), Dual Clutch Transmissions (DCT), MAN or Voith applications.

Some OEMs recommend Group III or Full Synthetic ATF for extended fluid service life and high and low temperature fluid performance. The use of Dextron III in these applications may affect the fluid viscosity.
